

# Chattahoochee TECHNICAL COLLEGE

## Office of the President

June 16, 2011

Chairman Julius Genachowski  
Federal Communications Commission  
445 12th Street, SW  
Washington, D.C. 20554

Dear Chairman Genachowski:

As the largest technical college in the Technical College System of Georgia, Chattahoochee Technical College must be able to provide the highest level of technology available. Therefore, we want to offer our full support to AT&T for their acquisition of T-Mobile. If this merger is approved, AT&T will be able to accelerate the delivery of its latest wireless technology. In addition, they will be able to reach more customers in more areas and provide faster connection speeds and improved digital service.

The merger will not only assist our students, but will also be a huge benefit for the communities we serve. Wireless service gaps and slower broadband connection speeds often impact the ability of small, rural communities to attract potential industries. This merger will help to give these areas a competitive edge in attracting new businesses and industry that may need cutting-edge technology.

AT&T is a quality organization that has a proven track record of service to its customers and the communities it serves. Chattahoochee Technical College could not operate, communicate, or instruct without their products and services.

Therefore, it is my sincere hope that you will approve the merger of AT&T with T-Mobile. Thank you for your consideration.

Sincerely,

Sanford Chandler, Ed.D.  
President
